 **Intacct.**

BRITTENFORD

SYSTEMS

What is InvoiceConnect?

Seamlessly integrate your invoice processing between Concur Invoice and Intacct. InvoiceConnect creates an automated integration between the two systems and completes your invoice workflow. This cloud based connector is pre-packaged and gives you the power to manage the data mapping between systems, which means no costly custom development or manual processes! Keep vendor information synchronized between systems and fully streamline your invoice processing.

Key Benefits:

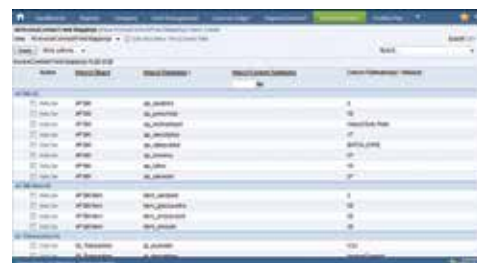

- » Seamlessly integrate Concur Invoice and Intacct
- » Synchronize vendor records between systems
- » Automatically pull approved invoices into Intacct

Accommodates:

- » Concur InvoicePay
- » Intacct multi-entity
- » Multi-currency

About Brittenford Systems

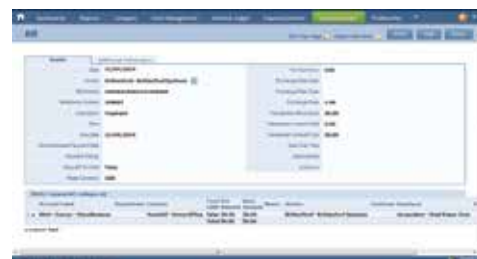

Brittenford Systems is a nationally recognized consulting firm that specializes in delivering financial management and business intelligence solutions as well as CIO Advisory Services to mid-market companies. With our extensive industry experience and unique approach, we help organizations implement and support Microsoft Dynamics GP, Dynamics SL, and cloud-based Intacct and Host Analytics. For more information about Brittenford Systems, please visit www.brittenford.com or call 703-860-6945.

All Integration setting and data mappings are defined within your Intacct environment.

Scan and route invoices for approval through Concur Invoice

Seamless integration generates the appropriate documents and transactions within Intacct.
