Brittenford Systems Announces Intacct 30-Day Free Trial

Reston, VA – February 19, 2013 – Brittenford Systems is now offering a 30-Day Free Trial of Intacct® cloud accounting software. Intacct is the only AICPA-endorsed cloud software, available as software as a service (SaaS).

Intacct cloud accounting software is one of the fastest growing software applications in North America, typically replacing entry-level systems, or legacy on-premise systems. Cloud or SaaS is gaining popularity due to its high return on investment and lower total cost of ownership. Cloud solutions also provide organizations with ease of accessibility from anywhere adapting to the changing needs of businesses with remote users and multiple locations.

Brittenford's Intacct 30-Day Free Trial program allows potential users to explore the functionality of this cloud-based system, with no financial burden. Registration is quick and easy. From there, the trial includes step by step instructions, videos describing the benefits of Intacct, and the ability to switch roles and invite others to a trial site.

"A majority of small and mid-size businesses have outgrown entry level financial systems, but forgo upgrading because traditional on-premise systems can be cost prohibitive," states Shereen Mahoney, CEO of Brittenford Systems. "This 30 day trial is a great way for businesses to review the features and benefits of the Intacct financial management system with no risk."

To register for this Free Intacct 30-Day Trial, [click here](#).
